**Data Flow Diagrams:**

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

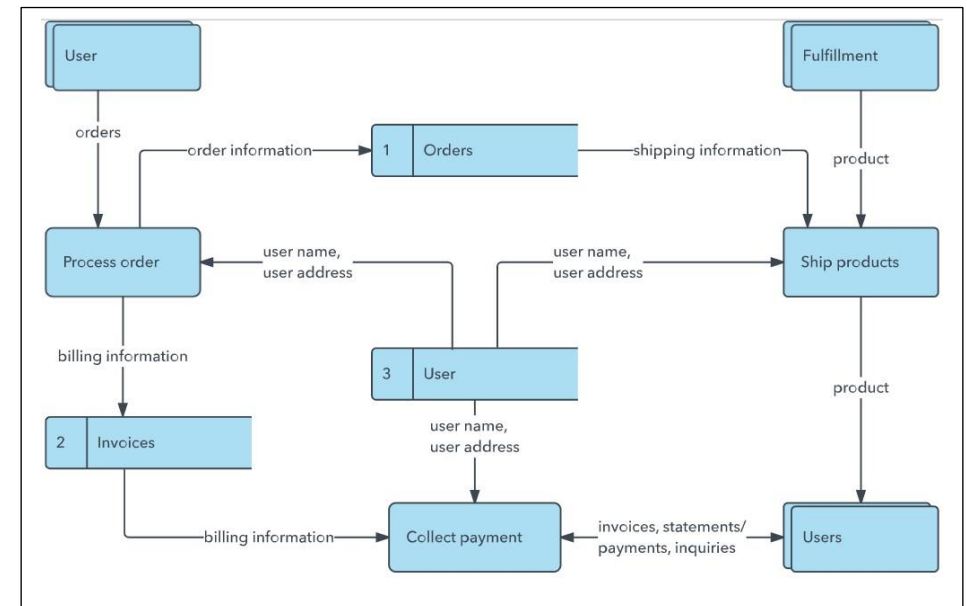

Example: DFD Level 0 (Industry Standard)

## Example: (Simplified)

### Flow

1. User configures credentials for the Watson Natural Language Understanding service and starts the app.
2. User selects data file to process and load.
3. Apache Tika extracts text from the data file.
4. Extracted text is passed to Watson NLU for enrichment.
5. Enriched data is visualized in the UI using the D3.js library.

## User Stories

Use the below template to list all the user stories for the product.

| User Type               | Functional Requirement (Epic) | User Story Number | User Story / Task   | Acceptance criteria                                       | Priority | Release  |
|-------------------------|-------------------------------|-------------------|---|---|----------|----------|
| Customer (Mobile user)  | Registration                  | USN-1             | As a user, I can register for the application by entering my email, password, and confirming my password. | I can access my account / dashboard                       | High     | Sprint-1 |
| Customer Care Executive | Login                         | USN-2             | As a user, I will receive confirmation email once I have registered for the application                   | I can receive confirmation email & click confirm          | High     | Sprint-1 |
| Customer (Web user)     | Dashboard                     | USN-3             | As a user, I can register for the application through Facebook  | I can register & access the dashboard with Facebook Login | Low      | Sprint-2 |

|                  |         |       |  |                                       |        |          |
|------------------|---------|-------|--|---------------------------------------|--------|----------|
| Administrator    | Profile | USN-4 | As a user, I can register for the application through Gmail            | It Follows through the Administration | Medium | Sprint-1 |
| Customer Service | Process | USN-5 | As a user, I can log into the application by entering email & password | We Should Maintain the Process        | High   | Sprint-1 |
